

G&D INNOVATION  
**FORGED INTO EVERY UNIT**

## ENGINEERED FOR INDUSTRY.

### BUILT FOR CONTINUOUS PERFORMANCE.

The ForgeLine Series is G&D's rugged, air-cooled chiller line—designed for demanding manufacturing, processing, and high-temp applications. With capacities from .5 to 6 tons, ForgeLine units deliver reliable, year-round cooling in harsh environments.

### KEY BENEFITS

- Durable scroll compressors for consistent performance under load
- Stainless steel plate evaporator for efficient, long-lasting cooling
- Outdoor-rated, corrosion-resistant chassis with easy-access panels
- Advanced microprocessor controls for precise temperature management

### CHILLER SPECIFICATIONS

MODEL	DIMENSIONS CM (WxLxH)	TONS	REFRIGERANT	KW
GD-0005TFLN*	88 x 83 x 63	0.5	R513A	1.8
GD-0007TFLN	82 x 77 x 88	0.7	R513A	2.5
GD-0015TFLN	82 x 75 x 88	1.5	R513A	5.3
GD-0023TFLR	111 x 90 x 145	2.3	R513A	8.1
GD-0029TFLR	111 x 90 x 145	2.9	R513A	10.2
GD-0034TFLR	111 x 90 x 145	3.4	R513A	12.0
GD-0061TFLR	111 x 90 x 145	6.1	R513A	21.5

\*Equipped with a reciprocating compressor. For indoor use only.

**BIG PERFORMANCE.  
SMALL FOOTPRINT.
